

HOW WOMEN

CAN RECLAIM THEIR LIVES FROM ADDICTION

THE FORECAST

Women become addicted to drugs and alcohol faster than men.

Addicted pregnant women place themselves and their unborn child in danger.

80 percent of women seeking treatment for an addiction have a trauma history.

Women tend to relapse at higher rates than men after going through treatment.

FEMALE BIOLOGY MAKES DRUG ADDICTION AN UNPREDICTABLE PERFECT STORM FOR WOMEN .

Addiction triggered by dysfunctional relationships, trauma and/or mental health.

This leads to financial troubles and irresponsible caregiving.

Physical appearance deteriorates and support system collapses.

Outside intervention is needed.

CONTINUING CARE

RELAPSE PREVENTION

Gender-Responsive Treatment helps women navigate through all the stages of recovery.

It is defined as "the creation of an environment...that reflects an understanding of the realities of women's and girls' lives and that addresses and responds to their challenges and strengths."

HEALING ENVIRONMENT

HOW CAN WOMEN RECLAIM THEIR LIVES?

LIBERTAE

Libertae uses **gender-responsive treatment** that considers the female biology and personal history of each woman.

Our licensed and credentialed staff experienced in treating co-occurring disorders actively engage each woman upon arrival.

We utilize a variety of evidenced-based approaches that empowers women and their families for post-recovery.

Through a collaborative process of assessment, planning and advocacy, we believe these resources are essential because they support the post-recovery process of independent living and social functioning.
